## Abstract

### Introduction

This report provides a detailed analysis of the candidate's performance in the assessment. The candidate's performance in each of these rounds help construct a profile that reflects suitability for the job role.

### Candidate details

This section provides information regarding the candidate profile along with the necessary details filled up by the candidate at the time of registration.

### Round Summary

This section provides the graphical representation of candidates' performance in different rounds and the sections therein.

### Round Analysis

This section provides a detailed analysis of the candidates' performance in different rounds. The analysis would consist of the introduction about the round and the parameters used to assess the candidates therein along with the feedback on the candidates' performance across each of these parameters.

### Proctoring

This section covers the candidates' result across various proctoring features used during the assessment.

-  Green: Highly recommended - Zero proctoring violations.
-  Orange: Potential fit - Minimal (1-2) proctoring violations.
-  Red: Not recommended - Multiple (more than 2) proctoring violations.

### Score Interpretation

All the test scores are on a scale of 0-10. All the tests except personality and behavioural evaluation provide absolute scores. The personality and behavioural tests provide a norm-referenced score and hence, are percentile scores. Throughout the report, the colour codes used are as follows:

-  Green: 71%-100% Highly recommended with high performance in different rounds.
-  Orange: 31%-70% Potential fit with average performance across different rounds.
-  Red: 0%-30% Not recommended with below average performance in different rounds.

Note: The above score bifurcation are not valid for psychometric assessment.
